

Introduction

When storing high volumes of suspension filing, you need cabinets that are built tough – but are designed to reduce workplace risk.

The G3 Lateral Filing cabinet has a refined look, contemporary handle design and sturdy construction to store a high volume of documents. Cabinets are available in various colours and sizes. They provide you with the opportunity to enhance your working environment with the beauty of nature by complimenting your G3 Lateral Filing Cabinet with the Strata 2 Planter. When creating a contemporary and functional working environment, the G3 Lateral Filing Cabinet range is the perfect choice.

Features

- Stylish design with smooth clean lines
- Heavy duty telescopic ball bearing runner system allows drawers to fully extend outside the cabinet body, providing easy access to files at the back
- Contemporary handle design
- Durable rigid steel carcass and oven baked powder coat finish
- Label holders
- Advanced anti-tilt mechanism
- Adjustable levelling feet
- Smooth and positive locking system provides peace-of-mind that items stored will be kept safe
- Full height box drawers provide utmost protection and maximise the space available for file storage
- Uniformly distributed load capacity of 60kg per drawer

G3 Lateral Filing Cabinet

Planter integration

Strata 2 Planter boxes are designed specifically for integration with the Strata 2 cabinet range. Planter boxes and cabinets are designed to align with standard heights in the cabinet range producing clean, consistent lines.

Please note: the recommended maximum height combination should not exceed 1430mm. The maximum height is achieved by using a 1200mm high cabinet with a standard 230mm planter box. Planter boxes accept 200mm diameter pots.
