

Dexion Strata 2 Tambour Cabinet - Dynamic Locking

Product overview

The Dexion Strata 2 Tambour Door Cabinet secured with Dexion Dynamic Locking, re-defines cabinet storage as we know it. We have harnessed the technological advancements in security and access accountability within a locking range which consists of three distinct levels of locking, each with varying connectivity, security and functionality options.

The Dexion Strata 2 Tambour Cabinet is secured as standard with our Bronze level unique pincer style latch lock. Silver level locking introduces keypad and RFID card operated locks supported by battery power. Gold level utilises RFID card or even app operated locking for the user, with centralised server connectivity for administrators. Gold level is available with live connection to your BAC system (Building Access Control) and / or Microsoft Active Directory system, and is commonly employed in ABW (Activity Based Workplace) environments.

The Gold level locking with its centralised server for administrators, can be applied to a range of other Dexion products to deliver a seamless and dynamic locking system to all the storage mediums in your fitout for ultimate access accountability. Other Dexion products include Freetrack 2 Compactus, Mekdrive 2 Compactus and Multibay 2 Compactus.

The Dexion Strata 2 Tambour Door Cabinets utilise an articulated curtain design to allow quick and easy access to stored contents while ensuring doors do not impede on the floor space in front of the cabinet. The door posts are also fitted with magnet to ensure a tight, secure and seamless finish when the doors are closed. The Dexion Strata 2 Tambour Door Cabinet colour range includes the rare option for a translucent colour ABS door slat.

Key features and benefits

- Achieve maximum storage capacity across a range of cabinet sizes incorporating fully adjustable shelves.
- Environmentally sustainable ABS door slats as standard, now also available in a translucent finish.
- Secure Pincer Bronze level locking system provides ultimate peace of mind with one key operating two lock latches with separate anchor points in the door. Removable barrel folding key with antimicrobial properties for durability, pocket comfort and hygiene. Secure 3000 series locking system including master key availability.
- Levelling feet as standard and adjustable from the base inside the unit.
- Optional lockable heavy duty castors (height restrictions may apply).
- Wide variety of accessories which are interchangeable across Dexion products.
- Magnetic strips to door posts eliminate door gaps.
- Complimentary matching planter box range.
- Standard interior colour of Stone White to match other Dexion products for ease of interchangeability and/or supply of accessories.
- Removable barrel folding key with antimicrobial properties for durability, pocket comfort and hygiene.
- Made from 100% recyclable sheet steel under ISO14001 EMS certification.
- Dynamic locking options with varying levels of connectivity, security and functionality.
- Durable powder coat finish.
