

# Dexion EasyFit Wire Shelving

## Product overview

The Dexion EasyFit® Wire Shelving is a system that has been designed to help improve the storage capacity of your floor space that may be otherwise unusable i.e. corners. The EasyFit® Wire Shelving can easily be re-configured to suit storage of any kind including medical equipment and consumables.

The range offers four durable and functional finishes; chrome for dry environments; zinc plated; epoxy powder-coated with antimicrobial coating for bacteria control in wet or dry environments and stainless steel for harsh or very wet environments. With its modern, industrial look, our chrome units are ideal for all types of general storage applications.

This flexible system does not require any tools to assemble, adjust shelf heights or to level. The wide range of optional accessories include posts, shelves, post connectors, corner unit connectors, mobile unit bumpers, baskets, castors, hangers, handles, rails, dividers, ledges and label holders which ensure the system can meet your storage needs now and into the future.

## Key features and benefits

- Versatile system, easily dismantled and repositioned
- Readily customised using our options and accessories
- Flexibility to add units as your needs change or grow
- Special sizes and accessories available
- Warranty ranges from 3 yrs to 10 yrs depending on the finish and application

## Technical specifications

Height	1000mm	1900mm
